**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) Region 4 announces the deletion of the Tennessee Products Superfund Site (Site) located in Chattanooga, Tennessee, from the National Priorities List (NPL). The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Tennessee, through the Tennessee Department of Environment and Conservation, have determined that all appropriate response actions under CERCLA, other than Five Year Reviews, have been completed. However, this deletion does not preclude future actions under Superfund.

**DATES:** This action is effective [Insert date of publication in the Federal Register].

The closing date for comments on the Notice of Intent to Delete was June 7, 2019. No public comments were received.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from

the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of a site from the NPL does not affect responsible party liability in the unlikely event that future conditions warrant further actions.
